## Wrack 'em up

Wild wrack seaweed harvested in rotation from remote arctic conservation islands is the secret behind Seagreens' unique whole food capsules, which offer ocean micronutrients and mineral compounds not available from the soil.

Often, common kelp is too high in iodine, but Seagreens are ideal for safe everyday use to restore

and sustain dietary balance, regulate digestion metabolism and weight, daily detox and cleanse the blood as well as strengthening resistance and recovery.

A 30 pack of 500mg capsules carries an RRP of £6.75, while a 60 pack is £12.75. Contact Seagreens Ltd on 01444 400403.

## The best thing since sliced bread?

Having broken new ground last year with Organic, the UK's first completely natural premium sliced loaf, Harvestime has gone one better with Organic Crusty, the first-ever organic crusty sliced loaf. Combining 100% organic crusty sliced loaf. Combining 100% organic ingredients with the taste and texture of a traditional crusty loaf, it's available in three varieties — white, wholemeal and malted — all of which are in 800g sizes. Suitable for vegetarian, vegan and halal/muslim diets, Organic Crusty is free from GM ingredients and is produced to Soil Association standards, as well as being 97% fat-free. Contact Harvestime on 01270 782020.

## Gordon's nets top award

A Certificate of Excellence has been awarded to Gordon's Fine Foods, the Cranleigh, Surrey, based producers of specialist mustards, sauces and chutneys, in the Soil Association Organic Food Awards 2000 in partnership with The Mail on Sunday's magazine, *You*.

The company's Apricot and Sultana Chutney was Highly Commended in the Condiments, Savoury Preserves and Spreads category of the awards, earning the judges' comment that the product had "been deemed to encapsulate the best attributes of organic produce". Contact Gordon's Fine Foods on 01483 267707.

## Time for tea

Twinnings have recently scooped commendations at the Soil Association Organic Food Awards 2000 for their organic speciality teas and herbal infusions.

The company recently launched organic blends of English Breakfast, Earl Grey, Camomile and Peppermint, aiming to meet

demand for organic products from existing speciality tea and infusion drinkers, as well as attract new customers looking for products with outstanding taste and impeccable organic credentials. Twinnings' organic English Breakfast teabags are available in boxes of 50, with organic Camomile coming in 20 teabag boxes. Contact Twinnings on 01264 348325.

## Top tastes for pampered pets

Now dogs of all ages and sizes can enjoy organic food as well as their owners, thanks to Yarrah's recently launched organic dry food range. Made from 100% organic grain, maize and pure chicken meat, the chicken recipe for dogs comes in an easy-to-open 1kg box. Cats are catered for too, with a chicken and fish recipe that comes in a 300g easy-to-open box.

Yarrah's products are made without added sugars, dairy products, chemical flavourings, pesticides, hormones or GMOs. Contact Yarrah on 0800 3444 3888.
